Project implementation class set June 10-14 at Marshall

A project implementation class will be June 10-14 at Marshall, focusing on executing a baselined project using NASA program and management systems requirements. The course will examine earned value management, risk management, configuration management, and contract award and management to achieve timely project completion. For information, call 544-8864.

Assistance program hotline open nights, weekends

The Center offers Employee Assistance Program services for after duty hours and weekends. Professional counselors can assist callers through a crisis or issue. For help, call 1-888-438-3115.
